GIVEN TRYOUT IN CITY

One-man trolleys were operated for the out the mainder of the day. The car worked in fine form, giving apparent satisfention to all those who patronized the service. The car was in charge of Mo-torman W. S. Abel and Conductor Lyons. Although a conductor is not necessary on ing to the newness of the plan that it was best to have a conductor on the first

the first time to pay their fare as they enter. But that isn't the way. You pay your fare as you leave. This will be one of the things which the public will become educated as they continue to use the cars. The motorman is provided with change to enable the massenger to drop the right fare in the box. drop the right fare in the box.

DEFENSE HAS REGUX IN

COAL POCKET CASE

Direct evidence for the plaintiff in the trial of the suit of Lewis M. Young against the Shetuckst Coal & Wood Co. Theselay in the trial of the casey in the rease in the plaintiff rested, Wilberse with a fining Judge George E. Himman has dealed the plaintiff of the suit of Lewis M. Young against the Shetuckst Coal & Wood Co. Theselay in the trial of the casey in the rease of the plaintiff rested, Wilberse will of Sadie F. Smith of Now Theselay in the trial of the casey in the rease of the plaintiff rested, Wilberse St. J. Desmond and Charles V. James, were Civil Engineer George E. Fitcher, Contractors Charless R. Williams and Henry G. Peck, and Leon C. Miller, the foreman on the job of the building the ement coal pockets for the Shetucket Coal and Wood Co.

Civil Engineer Shepard R. Palmer, who was engaged by the coal and wood company to supervise for "them the building of the coal pockets, was capiled to the giand by the defendant's attorneys, Brown and Perkins and Joseph T. Fanning.

He testified to making calculations from the measurements in the plans by which he determined that the coal pockets would hold only 1412 tons instead of the amount suggested. Furthermore the amount suggested. Furthermore the same done the plaintiff to remewhere the granting of allmony pendents lite. The plaintiff, taking his of the coal pockets would hold only 1412 tons instead of the amount suggested. Furthermore the same done the same done the plaintiff to remewhere the granting of allmony pendents lite in the plans by which he determined that the coal pockets of the plaintiff, taking his object to the right of the plaintiff to remewhere the granting of allmony pendents lite.

The model of the case on the coal pockets of the plaintiff to remewhere the plaintiff to remewhere the granting of allmony pendents lite in the plans did not provide sufficient to institute of the action on its mettic can be present to the carse come to a ston. This value the carse come to a ston. This value the con

There are eight reversible cross sents on each side of the aisle, one being on the platform for use of the motorman. These seats are 34 inches over all lengths and with pressed steel pedesials and ends. The seat cushions and lacks are of the control of the seat cushions and lacks are of the control of the on Marcmh 22, 1899. Mrs. Smith asked allow with pressed steel pedesials and ends, allmony, claiming her husband had property worth \$40,000.

In an affidavit filed in answer to the motion for alimony, Mr. Smith stated that he is now living in Los Angeles and that he is now living in Los Angeles and lass frequently invited his wife to come there and live and is willing to provide a home Gere for her. He says that he has turned over to her before leaving New London property worth \$20,000, and that he only earned in 1919 a itstal of \$1.
